# Canvas

(Photographs & Art)

**Any image can be put onto canvas either photographic or Giclée art reproduction.**

Our canvas reproduction uses a natural feel heavy textured artistic\*, or a photographic white glare-free matt canvas with a flexible canvas structure that stretches well, and holds its tautness over time (reducing the need for frequent re-stretching or tightening). We also supply a "High Definition" Fabric as an alternative to give a fabric feel yet "finer grain" photographic finish.

Our inks are archival quality water-resistant and UV resistant, with a projected indoor life (no direct sunlight) of at least 75 years. This combination of the inks and the canvas base gives a maximum fade resistant life - keeping high colour and minimal marking with fingerprints etc.

### We offer three types of stretcher frame

- **Traditional** - about 1/2" deep edge canvas profiled timber frame
- **Professional** about 3/4" edge depth (but about 3" wide) stable knot-free suitable for all canvases and takes re-enforcement for large canvases easily
- **Deep** - a very heavy stretcher bar about 2" deep edge, great for all the very big canvases, reinforces brilliantly and resists warping.

Our finished canvas pricing chart shows recommended stretcher bars. We cut all our own stretcher bars hence we have no restriction (max size 1M by 3M) on size and aspect ratio, so we can match the frame to the print, hence avoiding unnecessary cropping of the picture.

### Edge Finishing

- **Gallery-wrap** finish (wrapped image over the edges – note 2.5 inch of the image edge is lost all the way around for the sides),
- **Mirrored edges** – image is mirrored over the edge to give a gallery wrap appearance without loss of image on the picture face. **There is a £2.95 surcharge** to process the image – unless it is provided pre-prepared ready to print
- **White, black or coloured (Default)** edge to get the finish appropriate to your image and application.

### Other Options

- Made to the pictures own natural aspect ratio (no unnecessary picture loss or cropping) - including square canvases (**Default**)
- **Colour "as supplied" (Default)** or black & white or duo-tone (including sepias and other tones) - anything other than "as supplied" must be specified clearly.
- Cropped to your interesting parts of your image on request
- Stretched canvas' are right ready to hang – price includes everything.
- Loose non-stretched printed canvas available – please ask for pricing
- Additional picture frame surrounds also available – please ask for pricing
- Any custom work to create a montage, multiple files onto a single canvas or other effects will be **quoted for once they have been looked at.**
- Printing from a single **digital file incurs no additional costs.**
- Scans from photographic prints or negatives **incur a £2.95 surcharge per picture.** Captures of artwork – see separate price guide for capture costs.

A0 or 1Sq Meter	84.1*118.9	£57.56	£101.76	£122.04

The above is only a guide, if you do not see the size you want – please ask - we make our own frames and can print and mount any size upto 40" wide by 84 inch long

**Canvas for harsh environments...**

**Canvas for pubs, bathrooms, hotels & other "unkind" environments for art.**

In addition to our matt canvas, we can also provide a waterproof and abrasion resistant coating, monel staples (more corrosion resistant than stainless steel) , or weather proof & fire-resistant fabric !! \*Note our textured art canvas is used as default. **ask for details...**

**NOTE: Orders over £50 require a 25% non-refundable deposit on order**

**If proof prints are required – a small format A4 paper proof will be charged at £2.50 per proof.**

These discounted prices are only available through the trade counter at Wootton Bassett.

Further Volume or Re-seller discounts available... Prices include VAT
